Station 1, Product A: Attention map
query position in 96-sample context
key position in 96-sample context
mean head weight
Station 1, Product C: Attention map
query position in 96-sample context
key position in 96-sample context
mean head weight
Product A minus Product C:
same W_Q, W_K, W_V, different mixing weights
query position in 96-sample context
key position in 96-sample context
weight difference
